ankleshwar-vishwakarma

Anks-sec

Summary

Motivated and detail-oriented cybersecurity enthusiast with foundational knowledge in ethical hacking, network security, vulnerability assessment, and web application security. Skilled in using tools such as Nmap, Wireshark, and Burp Suite through practical labs and hands-on learning platforms like TryHackMe and EC-Council. Passionate about identifying security vulnerabilities, analyzing threats, and strengthening system security in real-world environments.

Seeking an entry-level cybersecurity role where I can apply my technical skills, problem-solving abilities, and continuous learning mindset to contribute to organizational security while gaining professional experience in penetration testing, SOC operations, and information security practices..

Education

SPPU, Genba Sopanrao Moze College of Engineering

Bachelor of Engineering in Computer Science

CGPA: 7.11

Dec 2020 – May 2024

Pune, Maharashtra

Skills

Networking: TCP/IP, DNS, HTTP

OS: Linux, Windows

Tools: Nmap, Wireshark, Burp Suite

Programming: Python (Basic)

Experience

TechnoHacks EduTech. Internship [Certificate link](#)

Feb 31 2023 – March 31 2023

Portfolio Website

Pune, India

- Developed responsive web pages using HTML, CSS, JavaScript, and Bootstrap to enhance UI/UX.
- Optimized page performance and ensured cross-browser compatibility and mobile responsiveness.

Projects

Vulnerability Scanning using Nmap (*Nmap, Networking, Port Scanning*)

March 2026

- Scanned local network for open ports and services.
- Identified vulnerabilities and exposed services.
- Generated security recommendations.

Packet Analysis using Wireshark (*Wireshark, Network Analysis, TCP/IP*)

March 2026

- Captured network packets.
- Analyzed HTTP/DNS traffic.
- Detected suspicious communication patterns.

Web App Testing using Burp Suite (*Burp Suite, OWASP Top 10, Web Security*)

April 2026

- Performed security testing on demo applications using Burp Suite.
- Tested OWASP Top 10 vulnerabilities including XSS and SQL Injection.
- Analyzed HTTP requests and responses.

Practical Cybersecurity Labs – TryHackMe

May 2026

- Practiced enumeration, vulnerability assessment, and web security testing.
- Used tools including Nmap, Wireshark, and Burp Suite.

Achievements & Certifications

- **EC-Council CEH v13** (currently pursuing)
- **TryHackMe** (currently pursuing)
